AFFORDABLE AND PUNCTUALITY

While publishing free educational magazines to all schools in Hong Kong, Education Media faced two biggest challenges - time and cost. They hope to find a delivery partner who has the capacity to deliver magazines all over Hong Kong in a timely manner and at an affordable cost.

In Hong Kong, majority of the schools are located in non-commercial area - this is why a lot of delivery companies charge Education Media extra fees for school deliveries. On top of that, quite a few companies do not deliver to outlying islands and this brought out so much inconvenience, as Education Media wants to appoint one delivery company to handle their last-mile delivery needs. What is more, for most of the time, even if these delivery companies do deliver to outlying islands, they are always late for deliveries.

With Pickupp, these aforementioned concerns are solved. Pickupp only charges a flat, affordable fee for each school delivery with no hidden cost. Most importantly, Pickupp has over 10,000 delivery agents all around Hong Kong, this helps to deliver magazines punctually to every single school in Hong Kong - providing Education Media and her customers an efficient and comfortable customer experiences.

Pickupp has over 10,000 delivery agents all around Hong Kong, I have much confidence in them to deliver our magazines punctually!

ADVANCED AND RELIABLE SYSTEM

As a publisher, it is very common for Education Media to reprint magazines. When they have any reprints, Pickupp's dedicated account manager will liaise with the printing company directly and sort out everything - from the process of printing and pasting labels, collecting magazines from the printing company, to arrange deliveries.

Pickupp's account managers are professional, reliable and responsive. I highly recommend Pickupp to other publishers. I am sure they will enjoy Pickupp's delivery services as much as I do.
